Proposed Amendments

Applicants' counsel proposed an amendment to Claim 56 to correct the Examiner's Amendment attached to the Supplemental Notice of Allowability dated February 25, 2010 so that Claim 56 would read: "56. The method of Claim 55, wherein the acid is hydrochloric acid or trifluoroacetic acid."

Principal Arguments and Other Matters

In the Examiner's Amendment attached to the Supplemental Notice of Allowability dated February 25, 2010, the Office amended Claim 56 to depend from Claim 53, instead of itself. However, Claim 56 should depend from Claim 55.

The Interview Summary attached to the Supplemental Notice of Allowability dated March 5, 2010 contains an inaccuracy. The statement "Counsel said that claim 36 should depend on claim 55 and not 53 (emphasis added)" should have read "Counsel said that claim 56 should depend on claim 55 and not 53." Claim 36 is no longer pending.

In addition, to clarify the record, it appears that the Examiner's Amendment attached to the Supplemental Notice of Allowability dated February 25, 2010 has been vacated because the Examiner's Amendment attached to the Supplemental Notice of Allowability dated March 5, 2010 does not reference the prior amendment to Claim 56 in which the dependency was changed to Claim 53. If the Examiner disagrees with this clarification, she is kindly invited to clarify the record further.

Results of Interview

The Examiner agreed to the amendment and issued the Examiner's Amendment attached to a Supplemental Notice of Allowability dated March 5, 2010.
